Pre-Tender/Pre-Purchase invitation for study of feasibility of Re-laying of existing LAN [or] Fresh lay-in of LAN network.

OBJECTIVE OF WORK: Feasibility study is invited from the LAN network vendors based in Chennai or Pondicherry for providing a solution for LAN network in the work place as per

- a) the current status and
 - b) also as a fresh, brand new lay-out of LAN
- for the same work place, in three stages.

REASON FOR RE-LAY: The existing LAN has been dismantled owing to demolition of walls and conversion of rooms into halls in the said work place.

CURRENT PLAN OF EXISTING WORK: The work place consists of three floors where the total LAN requirement of 45 to 60 LAN points may be evenly distributed. Currently, flooring work is being done at the basement floor after which electrical and LAN / Cabling work may have to be undertaken. All civil/electrical works are to be completed floor by floor; i.e. work at each floor is to be completed fully and thereafter next floor is taken up.

CURRENT SCOPE OF WORK REQUIRED: The current scope of work is specific for laying in of LAN for PC only. Details are as follows. Existing LAN points and cabling has been dismantled and the wires re-coiled and wound up for re-use. LAN configuration is

Cables: CAT-6
Rack : 9U with Jack Panels
Switches : 24 port x 2 Nos.
Year Installed : 2006

Study is invited for two situations: **(1)** Re-laying of the existing cables into new conduit pipes and connecting them to modular furniture where the RJ45 sockets are built in. Vendor will supply only the conduit pipes; **(2)** Supply of all new cables and conduit pipes and laying of cables and connecting to the modular furniture where the RJ45 sockets are built in. Though study is invited for all the floors, work will be devolved/assigned in phases for each floor. First phase may have to be completed before 31st March.
